400 cocoa beans to make one pound of chocolate

Next →

According to the National Confectioners Association, it takes approximately 400 cocoa beans to make one pound of chocolate.

For reference, a Hershey's milk chocolate bar weighs 1.55 ounces. As there are 16 ounces in a pound, that means about 10 Hershey's bars equal one pound of chocolate, with about 40 cocoa beans going into each bar.
