

FUTURE-READY FACTORIES FOR FUNCTIONAL FOODS & BEVERAGES

(Adaptogens | Probiotics | Nootropics)

- Functional foods & beverages are reshaping consumer demand.
- Growth driven by health-conscious choices, gut wellness, mental clarity & stress management.
- Market moving towards scientifically backed, sustainable production.

WHY FUTURE-READY FACTORIES?

- Rising global demand for clean-label, wellness-focused products.
- Need for precision-controlled processes (fermentation, extraction, stabilization).
- Challenges: shelf-life, regulatory compliance, sustainability in operations.

PMG ENGINEERING SOLUTIONS

- End-to-End Factory Setup – from concept to commissioning.
- Specialized Processing Lines and process optimization.
- Energy-efficient utilities, hygienic design, automation & digital monitoring.
- Water & energy optimization, with renewable integration, checking all the boxes of sustainability.

PMG BUILDING TOMORROW'S HEALTH FACTORIES, TODAY

- Scalable, flexible, and smart manufacturing systems.
- Integrating AI & automation for consistency and efficiency.
- Partnering with clients to deliver safe, sustainable, and innovative functional foods & beverages.
