

Did you know?

India produces, consumes, and exports the most chili peppers in the world.

Next →

Chilies are the most common spice cultivated in India and is the world leader in chilli production followed by China, Thailand, Ethiopia and Indonesia.

- Indian chilli is considered to be world famous for two important commercial qualities : color and pungency levels.
- Indian share in global production is 50 to 60 per cent.
- India is the only source for hot chillies.
