

NUTELLA USES A LOT OF HAZELNUTS

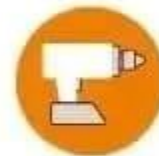

- **Nutella is marketed as "hazelnut cream" in many countries. Under Italian law, it cannot be labeled as a "chocolate cream", as it does not meet minimum cocoa solids concentration criteria. Ferrero uses 25 percent of the global supply of hazelnuts, though not all of this is used exclusively in Nutella.**
- **Each jar of Nutella contains approximately 52 hazelnuts.**
- **There is around 80 kcal in each 15 gram serving of Nutella.**
