

Safety & Compliance Management

Building Safer, Compliant & Future-Ready Facilities
PMG Engineering

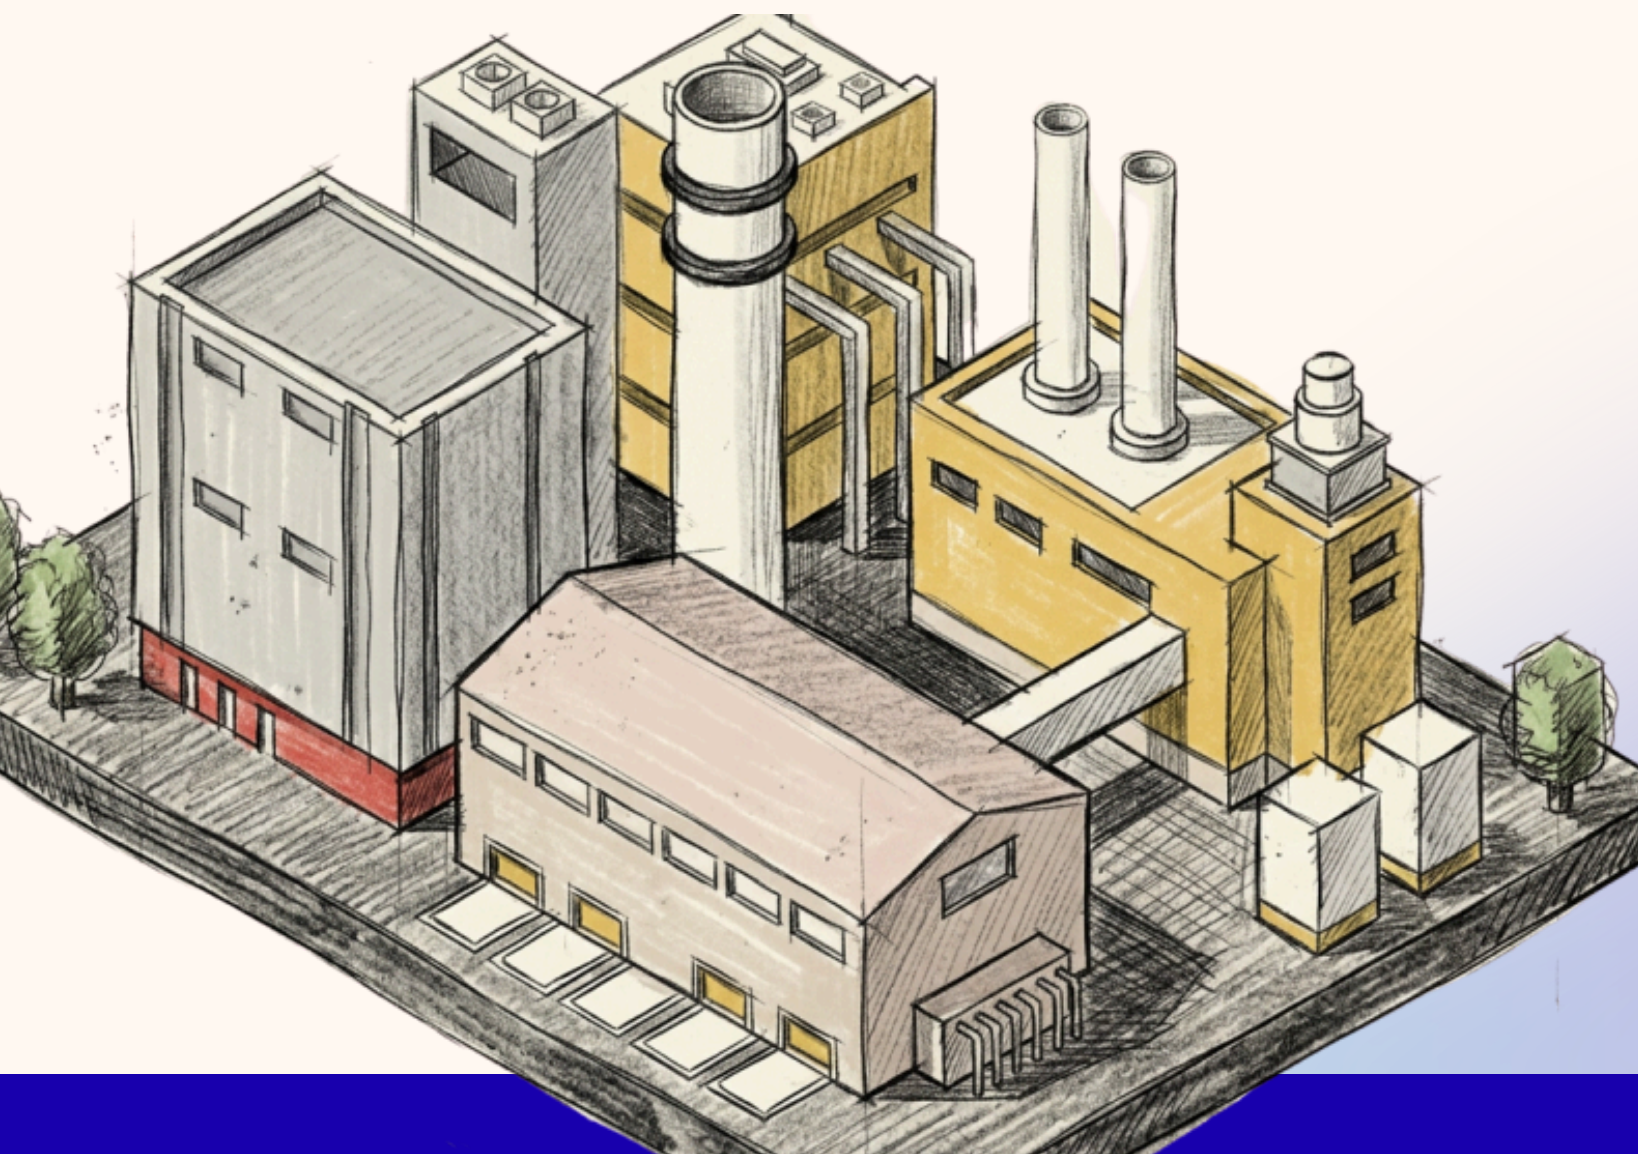

Why Safety Matters

Safety is the backbone of every successful facility.

Without it:

- ⚠ Operational risks increase
- ⚠ Compliance failures occur
- ⚠ Productivity is affected

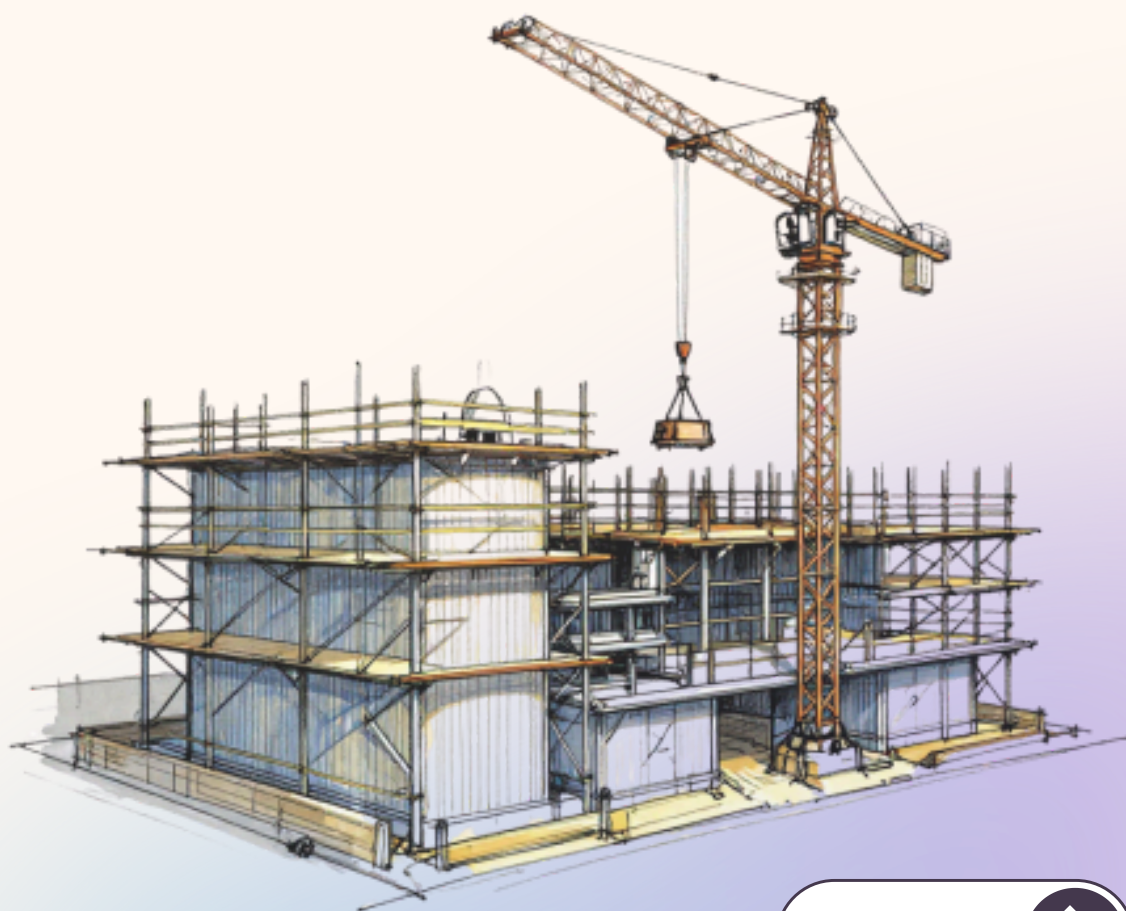

Our Integrated Approach

We embed safety into every project stage:

- ✓ Design
- ✓ Construction
- ✓ Commissioning
- ✓ Operations

Safety is engineered from the start.

Risk & Compliance Management

We ensure complete control over risks and regulations:

Hazard identification & risk assessment

Compliance with **HACCP, GMP, ISO & FSSAI**

Safety planning & mitigation strategies

People & Process Safety

Strong systems + trained people = safe operations

- Safety training programs
- Emergency preparedness
- SOPs & contractor safety systems
- Regular audits & monitoring

Delivering safer, compliant, and efficient facilities.

- ✓ Reduced risks
- ✓ Regulatory compliance
- ✓ Improved operational safety

PMG Engineering
Engineering Excellence. Safety First.
