

What's More **Dangerous** in a Food Plant?

1

MOST PEOPLE SAY

“Raw Material”

But that's not the real answer...

www.pmg.engineering

2

IT'S PEOPLE FLOW

WHY?

- Materials follow fixed paths
- People don't
- People move across zones
- Carry germs, allergens, contamination

ONE WRONG HUMAN MOVEMENT CAN BREAK YOUR ENTIRE HYGIENE SYSTEM

www.pmg.engineering

**SMART FACTORIES
DON'T JUST MANAGE
MATERIALS...
THEY CONTROL PEOPLE
FLOW**
